

<p><u>Autumn Term in Oak Class!</u></p> <p>Welcome to Oak Class! We are so excited to begin this learning journey with you all – children, parents and families alike. It really is a team effort!</p> <p>We are excited to continue our role as a “Muddy School” and share lots of muddy moments with the children. The benefits of outdoor learning are immeasurably and we know the children will thoroughly enjoy their experiences.</p> <p>Please email us with any questions you may have and thank you in advance for all your help and support.</p> <p>Mrs Keeler.</p>	<p><u>Mathematics</u></p> <p>We will begin by learning all about numbers – singing songs and rhymes, counting, looking for numbers in our environment and finding patterns.</p>	<p><u>Personal, Social and Emotional Development</u></p> <p>We will get to know the children through games and talk, and help them to build relationships with others. We will also develop their confidence with peers and asking for help.</p>
<p><u>Understanding the World</u></p> <p>We look forward to learning more about ourselves and the world we live in – both inside and outside. We will notice similarities and differences and record our observations.</p>	<p><u>Outside/Inside</u></p>  <p><u>What can you see through the window?</u></p> <p><u>Expressive Arts and Design</u></p> <p>We shall experiment with song, music and dance, noticing how it makes us feel. We will also use a range of materials, tools and techniques to be creative and develop our imaginations.</p>	<p><u>Communication and Language</u></p> <p>We shall be practising our listening skills and abilities to follow instructions. We will share ideas and develop our talking skills, learning when to speak and when to listen.</p> <p><u>Literacy</u></p> <p>We are excited to learn the letter sounds and begin to segment and blend them to support us with reading.</p>
		<p><u>Physical Development</u></p> <p>PE days will be <u>Wednesday and Friday</u>, please send your child to school in their PE kit on those days. We will work on our balance and coordination, alongside learning about the importance of good health.</p>
